### HPV free vaccine - Track patients with the Canning Tool

The Government funded HPV Vaccination Program for females 18-26 years will end in just a couple of months, with the 3rd dose due to be given by 31st December 2009. The new version of the Canning Data Extraction Tool provides the practice with the ability to identify patients who have received the vaccine and to target those who require their 3rd dose. The Canning Tool will assist practices to wrap up the programme with a higher compliance rate. Please contact Georgina Gourley for more information on 6792 5514.

**FREE WORKSHOP "Resilience Thinking"** Simple Strategies for Entrepreneurial Rural Women

**GUNNEDAH MONDAY 7TH DECEMBER**

Register online: [www.RRRworkshop.com](http://www.RRRworkshop.com)

A number of free workshops are being presented by speaker and facilitator Denise Quinn CSP (NSAA), founder of the Rural Women's Forum Program, under the 'Engaging Women Farmers Project' which focus on the business and 'life skills' development of women living and working in rural, regional and remote areas across Australia.

This workshop provides great information to help you

- develop long-lasting resilience strategies
- ensure you achieve your goals
- take your business to the next level

Please see attached flyer for more information

[beyondblue online training](#) - please see attached flyer for more details.

### Patient-initiated aggression survey

The Australian Primary Health Care Research Institute would like to know how safe your practice is. GPs and practice managers are encouraged to complete a short online survey:

Practice Managers: [surveys.campbellresearch.com.au//1024\\_Practice\\_Survey.htm](http://surveys.campbellresearch.com.au//1024_Practice_Survey.htm)

GPs: [surveys.campbellresearch.com.au//1024\\_GP\\_Survey.htm](http://surveys.campbellresearch.com.au//1024_GP_Survey.htm)
