

What IF you could learn about CQI through a series of fun, interactive, one-day workshops?

Sydney, NSW

Introduction to CQI : 16 December 2009

Exploring QI Tools: 17 December 2009

Building Champion Teams: 17 March 2010

Managing & Leading Change: 18 March 2010

Improvement Foundation Australia's CQI Workshops have been specially designed to provide you with the skills to implement CQI, all in easy to manage one-day workshops. You can attend just one of the CQI workshops, or you can work your way through as many as you like.

IFA has aligned each CQI Workshop with units in the nationally recognised Certificate IV in Frontline Management (BSB40807). By successfully completing the activities and assessments required for each unit you can work your way towards this qualification.

If you are a supervisor, line manager, project officer, or leader within your organisation, or you want to head in that direction, these workshops will be ideal for you.

Visit www.improve.org.au for registration details.
